STAFF REPORT

Subject: Resolution 19-17, Approve Deferred Remedial Action Agreement with Newcastle Fire District for Newcastle Fire Station Project

Meeting Date: September 5, 2019

The Newcastle Fire District (Fire District), a California Fire Protection District, is in the process of constructing a new fire station. Phase I of the fire station project consisted of substantial grading and preparation of the site. Phase I also included construction of new sewer in preparation of Phase II improvements. The Phase I sewer improvements were accepted by the District on September 6, 2018. During warranty CCTV inspection on July 16, 2019, a SPMUD crew observed a section of pipe that was damaged (i.e., deformed) as a result of the substantial grading activities performed during Phase I of the project. SPMUD informed the Fire District of the need to repair the damaged pipe on July 17, 2019. The Fire District requested a deferment of the remedial action to repair the damaged pipe since Phase II of their project will allow for the damaged pipe to be abandoned. Phase II of the project is scheduled to begin in the spring of 2020.
