Auburn, CA 95603

Subject: Newcastle Fire Station Project, PLN14-00044 (RDG project #13-262)
Letter to GrassRoots Environmental

Dear Mr. Whitehouse,

Pursuant to your letter dated June 12, 2014 to Charlane Gross, GrassRoots Environmental, please note the following responses below:

- In order to ascertain whether the project could affect cultural resources that may be of importance to the UAIC, we would like to receive copies of any archaeological reports that are completed for the project. We also request copies of future environmental documents for the proposed project so that we have the opportunity to comment on potential impacts and proposed mitigation measures related to cultural resources. The UAIC would also like the opportunity to have our tribal monitors accompany you during the field survey. The information gathered will provide us with a better understanding of the project and cultural resources on site and is invaluable for consultation purposes.

Response: We contacted Mr. Guerrero via email on August 5, 2014 and followed up via phone on August 6, 2014 inquiring which reports/studies the UAIC would like to review. Also, Mr. Guerrero was invited by Charlane Gross of GrassRoots Environmental to attend her site investigation on August 25, 2014. A copy of her report will be forwarded to Mr. Guerrero directly.

- The UAIC's preservation committee has identified cultural resources in and around your project area, and would like to request a site visit to confirm their locations. Thank you again for taking these matters into consideration, and for involving the UAIC early in the planning process. We look forward to reviewing the documents requested above and consulting on your project. Please contact Marcos Guerrero, Cultural Resources Manager, at (530) 883-2364 or by email at mguerrero@auburnrancheria.com if you have any questions.

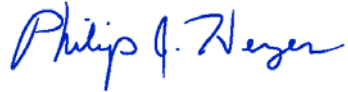

Response: Noted.

“Values from the Past, Experience for the Present, Preparing for the Future”
