RE: Newcastle Fire Station

Dear Phil:

Recology Auburn Placer has reviewed the plans for the enclosure specifications and approach for the above referenced project. This is not an enclosure that could be used for front load bin service. However, the current location for Newcastle Fire uses residential style containers for their service. If this is the case for the new location, we will provide service at the enclosure location.

Please let me know if you have questions or need additional information.

Sincerely,

Kathryn von Seeburg, Office Manager
