Review comments

Dear Ms. Green,

We have received review comments via email dated July 14, 2014 (forwarded to us from Placer County) and propose the following responses:

- 1) Provide the Mitigation Report file  
**Response: Noted. The calculations have been updated and resubmitted.**
- 2) Explanation for selecting Roseville Electric as the provider  
**Response: "Roseville Electric" has been corrected to "PG&E"**
- 3) CO<sub>2</sub>e emissions are below 1,000 MMTCO<sub>2</sub>/yr. May consider using an existing adopted threshold developed by one of the California Air Districts.  
**Response: We understand the County is confirming that another California Air District CO<sub>2</sub> threshold may be used.**
- 4) Acres for grading, paving are set to zero. Please verify.  
**Response: The input value for grading has been updated. However, note that the computer model would not accept paving values, and defaults to zero.**
- 5) Need the Summer report to determine criteria pollutant emissions in lbs/day.  
**Response: Summer Report is provided as noted.**
