## **SPECIAL TAX MEASURES IN NEWCASTLE**

---

**Newcastle Fire Protection District has two special tax measures which have been enacted and approved by the electorate. They are Measure ‘F’ and Measure ‘B’. The full text of each measure may be seen below under the appropriate title. When viewing the text of these measures please remember the actual dollar amounts listed have been changed over the years based on the increases in the Consumer Price Index. Also please note that neither of these tax measures has an end or sunset date.**

**If you have questions about these tax measures you may call the phone number listed on your property tax bill to discuss this with the District representative.**

**If you feel your taxes under either of these two measures as calculated by the District are incorrect, you may apply for an appeal or an exception for your properties. Go to the section titled *HOW TO APPEAL*. This will explain how to appeal the application of these tax measures to your property(s). Go to the section *titled HOW APPEAL IS PROCESSED* to see the details of how your appeal will be processed.**
